

Chief Planning Officer

Director of Housing & Health

4/0001/81DC/MR/DP

3rd March, 1981.

Seaton Road Development

The above application received deemed permission from the Development Control Committee last Thursday, 26th February. You may take this memorandum as being the official notification of this decision.

Will you please also note that your application was placed on the public register on 31st December, 1980.

Some local representations were received regarding your development and the Committee was informed that you intend to erect close-boarded fencing 1.8 m. high along the boundaries. I believe this is particularly important along the boundary to the rear gardens in Crabtree Lane, and I enclose a copy of a letter signed by 8 householders in Crabtree Lane.
