Dear Sirs

TRING ZOOLOGICAL MUSEUM, AKEMAN STREET, TRING

I refer to your consultation under Circular 18/84 for the proposed alterations at Tring Zoological Museum and to the revised plans received in the office on 9 May 1991.

These plans reflect the discussions which were held at the museum and the proposals are now considered acceptable; namely

1. The refacing of the existing stair tower with tile hanging.
2. The introduction of Tudor boarding and "dummy" windows.
3. The revised proportions of the windows which are to be stained hardwood.
4. The improvement to the entrance doors.
5. The increased in height of the brick plinth.

I trust that the tiles to be used will be a decorative scalloped tile as discussed, that the shutter across the loading bay will be painted ~~and~~ an appropriate colour and if any of the windows are to have opening light they should be side hung casements.

Thank you for giving this Council the opportunity to comment on your proposals.

Yours faithfully

DAVID NOBLE
DEVELOPMENT CONTROL MANAGER
