REASONS FOR REFUSAL
OF APPLICATION: 4/0495/91AD

Date of Decision: 04.06.1991

The proposed signs, due to size, colour and illumination, will have a detrimental effect on the appearance of the area and on the amenities of the residential properties located to the south. There are already numerous signs (both illuminated and non-illuminated) on the building and further signs would be seriously harmful to visual amenity on this sensitive location.
