REASONS FOR REFUSAL
OF APPLICATION: 4/0588/94

Date of Decision: 01.12.1994

1. The pitch is located close to existing housing, in particular numbers 1-11 (odd), Lombardy Close. The use of the pitch during the evenings due to the installation of the floodlighting will increase the level of activity at the site at times when, currently, noise levels are low. This increase in activity will cause noise, disturbance and nuisance and, in the long term, once installed there is likely to be a demand for an increased use of this floodlit facility. The effect of this will be to the serious detriment of the residential amenity of nearby dwellinghouses.
2. The proposed floodlighting, by reason of the number, height and location of the columns, together with the floodlights and cowling attached to them, would be a harmful visual intrusion within the open and flat landscape in the vicinity of the site.
