Dear Sir

**DEVELOPMENT AT RAF CHENIES, FLAUNDEN**

I refer to your Notice under Circular 18/84 of 8 May in respect of a 70 metre tower at the above location.

The matter was reported to my Development Control Committee on 21 June. In view of the sensitive nature of the location within an Area of Outstanding Natural Beauty, the Committee were of the view that the proposed development should only take place if it is considered that arguments in favour on grounds of national security outweigh the objections on grounds of visual intrusion. The Ministry of Defence is urged to consider this resolution very carefully and, in the event that the development proceeds, it is requested that all surplus <sup>buildings</sup> and aerals be removed from the land.

Yours faithfully

D. NOBLE

DEVELOPMENT CONTROL MANAGER
