REMOVAL OF TREES T34 AND T36

Your application for *works to a tree protected by a TPO* dated 27.05.1994 and received on 02.06.1994 has been *GRANTED*, subject to any conditions set out on the attached sheet(s).

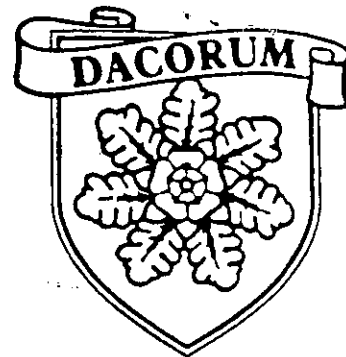

Director of Planning.

Date of Decision: 25.07.1994

(encs. - Conditions and Notes).

CONDITIONS APPLICABLE
TO APPLICATION: 4/0732/94

Date of Decision: 25.07.1994

1. Only the following works shall be carried out to the trees shown as T36 (cherry) and T34 (yew) in accordance with British Standard 3998:1989 Recommendations for Tree work:
- Fell both trees.

Reason: The cherry tree is dead. Also, the yew is inappropriate for its location and previous pruning works have left it with very little natural shape and amenity value.

2. Two replacement trees shall be planted in the first planting season following the removal of the trees. The replacements shall be standard in size i.e. at least 8-10 cm girth at 1 m above ground level and 2.75 m to 3 m in overall height.

Reason: To maintain appropriate tree cover on the site.

3. The species and location of the trees to be planted shall be agreed in writing with the local planning authority.

Reason: To ensure more suitable trees are planted.
