Rec'd. 13 SEP 2000					File
Comments:					

Dear Mr Gibbs,

**Town & Country Planning Act 1990 - Waste Compactors
Sommerfield, Millfield Road, Hemel Hempstead - Noise Assessments and Data.
Application Ref. 4 /00 874 / 00**

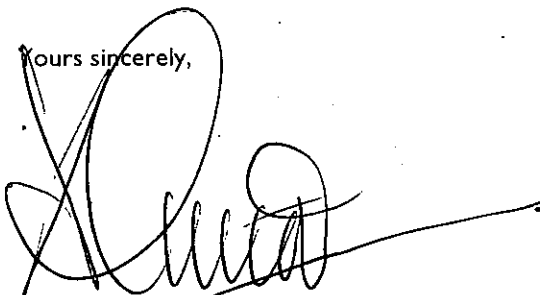

Further to our telephone conversation regarding the above earlier today in which you highlighted that the required noise survey is now long over due; we confirm that we wish to **withdraw** the current application, on behalf of our client, for the two number compactors currently installed within the service yard to the rear of the Store.

The noise survey is due to be made available by 29th September 2000 as indicated in our letter of the 11th September 2000. Upon receipt we will contact both yourselves and the Environmental Health Office in order to arrange a meeting, review the data and resubmit the application.

In the interim should there be any complaints in relation to the existing installation, please do not hesitate in bringing them to our attention in order that any issues arising can be addressed.

We apologise for the lengthy delay in assembling the additional information required in order to determine this application but seek to reassure you that our client wishes to build and maintain a good relationship with the local residents and the larger community.

Yours sincerely,

Andrew J. Senior

For and on behalf of HGP Ltd.
