REASONS FOR REFUSAL
OF APPLICATION: 4/0974/95

Date of Decision: 12.11.1996

The proposed scheme of illumination involves the positioning of luminaires such that light is directed outwards from the centre of the car park towards the site boundaries and also involves some upwardly directed light from luminaire no. 4. The scheme does not comply with nationally recommended standards and would give rise to harm to the visual amenity of the area due to skyglow associated with the upward direction of light and to the visibility of the light sources from the surrounding area. The proposal, therefore, conflicts with Policy 8 of the Dacorum Borough Local Plan.
