Approve subject to the following conditions:

1. A replacement Ash Tree shall be planted in the first planting season following the removal of the existing tree.
2. The replacement shall be a light standard in size (ie. at least 6.8 cms girth at 1m above ground level and 2.5m to 2.75m overall height).
3. The replacement shall be planted in a suitable gap in the vicinity of the existing tree.

REASONS:

- 1-3 The existing Ash is growing out of an old brick structure and has limited root development. As the tree grows larger it is likely to become dangerous removal and replacement is the best long term solution.
