Director of Planning

Date of Decision: 21.02.1991

(ENC Reasons and Notes)

REASONS FOR REFUSAL
OF APPLICATION: 4/1286/90

Date of Decision: 21.02.1991

The proposed development is likely to give rise to an increased use of the site by Heavy Goods Vehicles. This in turn will generate additional slowing, stopping and turning movements on the trunk road which will lead to a reduction in safety for vehicles on the trunk road. The submitted plan indicates the retention of the existing catering block which will result in the reduction of car parking available for the heavy goods vehicles visiting the site, and this in turn will lead to congestion and conditions prejudicial to general highway safety.
