1. Particulars of proposed development. (These particulars should be accompanied by such plans as may be necessary to enable the local planning authority to identify the land affected by the proposals and to appreciate the nature and extent of the proposed development.)

To provide an electricity supply for new farm buildings at New Ground Road, Aldbury. It is necessary to erect a new high voltage overhead 11 kV line supported on single wooden poles. PART II - INFORMATION AND OBSERVATIONS

(To be completed by the local planning authority who will be the District Council or the County Council if the proposed development is to be dealt with as a county matter.)

Planning Reference No.

4/1292/8750

1. Names of interested parties consulted as to the proposals with details of any observations received.

Albury Parish Council - No observations on this proposal.

2. Particulars of any representations which have been made to the local planning authority objecting to the proposals.

None.

3. Have any general or specific restrictions been imposed by any authority on development of the land affected by the proposed development?

The land falls within the Chilterns Area of Outstanding Natural Beauty.

4. Does the proposed development involve the demolition, alteration or extension of a building of special architectural or historic interest included in a list compiled or approved under section 54 of the Town and Country Planning Act 1971?

No.

5. Do the local planning authority object to the proposed development in principle? (If so state reasons.)

No objection in principle, but having regard to the openness of the landscape in this area and the fact that the land falls within the Chilterns A.O.N.B. it would represent a significant visual improvement if the 11Kv line could make use of the existing British Telecom line of poles from the lodge to the track leading to the farm buildings.

6. Are the local planning authority prepared to approve the proposed development subject to modifications or conditions which are not acceptable to the Electricity Board? (If so specify the modifications or conditions proposed.)

See reply to Qv. 5 above.

7. Do the local planning authority approve of the proposed development as described, or approve of it subject to modifications or conditions which are acceptable to the Electricity Board? (If the latter, specify the agreed modifications or conditions, so as to enable the authorising Department to include them in their direction.) (Note: the precise form of any modifications or conditions subject to which the consent or directions are given is a matter for the Secretary of State, who will however have regard to the form of words agreed.)

See reply to Qv. 5 above.
