REASONS FOR REFUSAL
OF APPLICATION: 4/1308/92

Date of Decision: 26.01.1993

The site is within the Metropolitan Green Belt wherein permission will only be given for the use of land, the construction of new buildings, changes of use of existing buildings for agricultural or other essential purposes appropriate to a rural area or small scale facilities for participatory sport or recreation. The use of land for the storage of liquid petroleum gas is an inappropriate use in a Green Belt and is therefore unacceptable in the terms of this policy, and such use, although initially permitted for a temporary period, should not be allowed to persist indefinitely.
