REASONS FOR REFUSAL
OF APPLICATION: 4/1533/92

Date of Decision: 05.01.1993

1. Inadequate car parking exists to serve the proposed increase in floor space and the needs of the existing building. The use of the enlarged building would exacerbate the congested parking and highway problems of the locality which have been acknowledged by the Department of the Environment in recent appeal decisions.
2. The proposed extension would require the removal of a number of trees and result in the loss of a small but important grass area which would have an adverse effect on the environmental character of the area.
