Date of Decision: 13 October 1999

**REASONS FOR REFUSAL APPLICABLE TO APPLICATION: 4/01533/99/TDM**

Date of Decision: 13 October 1999

**1. The proposed mast would constitute a prominent and widely visible feature that would have a detrimental impact on the open and undeveloped character of the Green Belt. It would also have an adverse impact on the character and appearance of the landscape. Furthermore, insufficient information has been provided to demonstrate that, firstly, mast sharing or the use of other less prominent sites is possible, and, secondly, that this is the only possible option that would meet the technical requirements of the code system operator.**
