. Policies of the development plan aim to safeguard the local environment. Policy 8 of the Dacorum Borough Local Plan, which is supported by the associated Environmental Guidelines for Small Extensions, specifies that the development will not be permitted unless it meets a range of criteria. This includes the size of new dormers. It is expected that dormer margins should be inset greater distance from the boundaries with adjoining dwellinghouses than those shown by the proposed plan. The proposed dormer by reason of its width will dominate the rear roof of No.33 and that of the other parts of the terrace to the detriment of the appearance of the dwellinghouse and the roofscape within the locality .
