Dear Sir,

Re: Application no: 4/1652/88 CA
No 5, Pickford Rd, Markyate, Herts.

In view of the fact that the above property, previously used as an engineering workshop, does not exceed 500 square metres; and the single storey forward projection amounts to less than 10% of total building we wish to withdraw the above application.

The projection is in any case not an original feature, does not appear in character with the building and finally is very dilapidated.

We will be restoring the front elevation to it's original state, with hand made wooden doors and window frames - notes recovered from Hertford Records Office.

Enclosed is a photocopy of our surveyors notes on the above, plus ordnance survey dated 1883/4 showing original building (minus projection), and a fore of the existing state.

Yours faithfully,

ANGELA MILLER
