Dear sir/madam

**WORKS TO TREES IN THE CONSERVATION AREA:
4 CHARLES STREET, BERKHAMSTED, HERTS, HP4 3DF**

Thank you for your letter of 24 November 1999 notifying the Borough Council of your intention to carry out the above works.

The Council have no objections to your proposals for the following reason(s):

. The proposed works will not adversely affect the character or appearance of the Conservation Area, provided that the works are limited to the following:

Tree 1 - Horse Chestnut (12 metre height)

Overall crown reduction by approximately a third, or repollarded back to the trunk if desired. The tree contains a major cavity at the top of the trunk and works are required on safety grounds.

Tree 2 - Sycamore (15 metre height)

Overall crown reduction by approximately a third. This is a multi-stemmed semi-mature tree which is too close to the building to retain without reduction

Tree 3 - Sycamore (12 metre height)

Shorten lateral branches extending over garden and reshape as necessary, or overall crown reduction as desired. This is a young twin-stemmed suppressed by trees on neighbouring land.

This decision, which was made on 04 January 2000, allows you to progress these works.

Yours faithfully

Colin Barnard
Director of Planning
